

FOR IMMEDIATE RELEASE

## **Enterprise Data Solutions Announces Relocation and New State-of-the-Art Data Center**

**Middleburg Heights, OH (June 11, 2024)** – Enterprise Data Solutions Inc. (EDSI), a trusted leader in IT security and cloud data protection, today announced a significant milestone with the relocation of its headquarters and the construction of a new state-of-the-art data center at 6993 Pearl Road, Middleburg Heights, OH 44130.

This strategic move positions EDSI to become an even stronger advocate for your business's digital well-being. The new, state-of-the-art data center will be equipped with advanced infrastructure, designed to elevate EDSI's ability to deliver unparalleled security and scalability for your critical data.

“At EDSI, we take a proactive approach to IT management,” said Patrick Connor, Co-Founder and President of EDSI. “Our philosophy is to anticipate and address potential issues before they disrupt your operations. This commitment, combined with our robust cloud data protection solutions, ensures your information remains secure and accessible at all times.”

EDSI's proven track record of delivering dependable and secure IT solutions speaks volumes about its unwavering dedication to excellence. Moreover, EDSI offers competitive pricing without compromising on quality or performance, making them the ideal partner for businesses of all sizes.

**We are particularly thrilled to be joining the vibrant Middleburg Heights community!** We look forward to becoming active members and contributing to the continued success of the area.

“We understand the unique challenges businesses face in today's ever-evolving digital landscape,” said Jeffrey Manuszak, Co-Founder and Chief Technology Officer at EDSI. “By combining the resources of our existing data centers with the capabilities of our new facility, we will be able to offer an unmatched level of service, security, and peace of mind to our clients across the region.”

EDSI will maintain its existing data center in Cleveland, ensuring continued comprehensive support for its extensive client base.
